

## **2021 Legislative Priorities**

The Iowa Association of Business and Industry has proudly served as the voice of Iowa Business since 1903. A member-driven organization, representing 1,500 member businesses that employ more than 330,000 working Iowans, ABI's 2021 legislative priorities reflect the goals of business and community leaders in Iowa's 99 counties.

### **Workforce**

ABI supports innovative solutions and incentives to help businesses and employees overcome barriers to employment, such as childcare and adequate and available workforce housing. ABI supports legislative efforts to recruit, retrain and retain talent in the state. ABI encourages the Legislature to continue funding Future Ready Iowa, work-based learning opportunities, apprenticeship programs, and other initiatives that will help upskill our existing workforce and prepare students for the careers of tomorrow. Further, as part of ensuring a qualified workforce, ABI encourages the Legislature to maintain policies that are conducive to safe workplaces and that allow employers to address drug and alcohol use.

### **Infrastructure**

In order for businesses to compete in a global economy, Iowa must have quality infrastructure that supports moving people, products and information across the state and throughout the world. ABI encourages the Legislature to take action to encourage private sector investments, and public-private partnership in rural and urban areas that will help maintain Iowa's economic competitiveness.

### **Regulatory Reform**

ABI members strive to comply with a wide scope of regulations at the local, state and federal levels. These regulations can often overlap, be outdated or are overly burdensome. Therefore, ABI supports:

- Streamlining environmental permitting requirements, reducing cost and time for businesses and the state.
- Modernizing notification requirements for employment drug testing.
- Reviewing and eliminating policies and regulations that hinder small business expansion.
